Jerome,

From Ruth: there were a lot of problems with this report's documentation as you'll see. Let them know that when I receive the revised report, I may have additional comments.

Also, I received your voice mail last week about the results from sampling at the golf course near the Institute site. I looked up the report as posted by the reporter (w/o figures). I will be at R3 Monday and Tuesday this coming week and is why I'm sending this on a Sunday afternoon.
